## Magnetic Gate Locks

### 600 & 1200 Lb Gate Locks

The DKGL (DoorKing Gate Lock) series magnetic locks operate on 12 or 24 Volt DC power and are designed for outdoor gate applications. The 1200 Lb. lock provides an electrical enclosure with predrilled and tapped conduit holes on the top, bottom, side and back providing easy wiring and installation. The 1200 Lb. gate lock kits include brackets that can be welded for easy installation. The 600 Lb. lock includes a built-in cable assembly for all wiring connections.

## Magnetic Door Locks

### 300 Lb. Mini-Lock; 2000 Lb. Shear Lock

The 300 Lb. Mini series magnetic locks operate on 12 or 24 Volt DC power and are available in surface and mortise mount styles. They are ideal for locking interior doors where a minimum holding force is required or where the size of the lock is a factor. The Shear Lock provides both a magnetic and mechanical connection to assure a superior lock, provides up to 2000 Lb. of holding force and is provided with LED lock status indicators and relay signaling.

## Electric Locks

### Dead-Bolts and Strikes

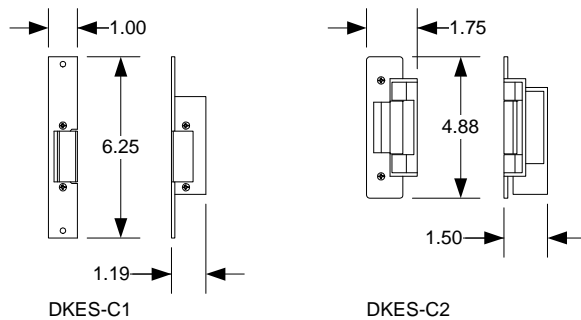

The DoorKing series of electric locks include various models of electric dead bolts, and both fail-safe and fail-secure electric strikes. These products can operate on AC or DC power. The electric strikes are suitable for cylindrical locks with a keeper depth of 11/32" (C1 series) or 20/32" (C2 series).

## Magnetic Lock Accessory

### Power Supply / Battery Charger

These power supplies provide backup DC power for magnetic locks when primary (AC) power is interrupted. Each of these power supplies features filtered and electronically regulated outputs, short circuit and thermal overload protection and each has a built-in battery charger for sealed lead acid or gel type batteries. The enclosure will accommodate up to two (2) 12 VDC / 7AH batteries. **Batteries are not included with these systems.**

#### Altronix Power Supplies

## Magnetic Lock Transformers

### 12, 24 Volt DC Transformers

A variety of DC transformers are available to power the different maglocks that we sell. Use the 350mA transformers for 300 Lb locks, 500mA transformers for 600 Lb locks and the 500mA or 1000mA transformer for 1200 Lb locks.
