

Remote Alarm / Reset Station

DoorKing Part Number

1404-080

The Alarm/Reset station provides a remotely mounted entrapment alarm and reset button for slide, swing and overhead gate operators that utilize DoorKing 4402, 4403, 4404, 4405, 4502, 4602 and 4702 operator control boards.

This Remote Alarm/Reset control station **MUST** be mounted in the Line-of-Site of the gate and gate operator!

DO NOT reset an alarm that has been tripped before **visually** inspecting the gate area for problems.

Operator Board Connections

Make sure that power to the operator is **OFF** before wiring the remote station.
