- 5. Restore from backup**

# DoorKing Internet-Modem Server

## 1) Creating a back up:

- ✓ Open the existing DoorKing software.
- ✓ Click on File (upper left corner) then scroll down to where it says Backup. This opens the backup window.
- ✓ Click on Browse, then click on “Desktop”, create a new folder.
- ✓ Double click on new folder and click “Save”
- ✓ You will get a message “Backup has been completed”. Click “OK”

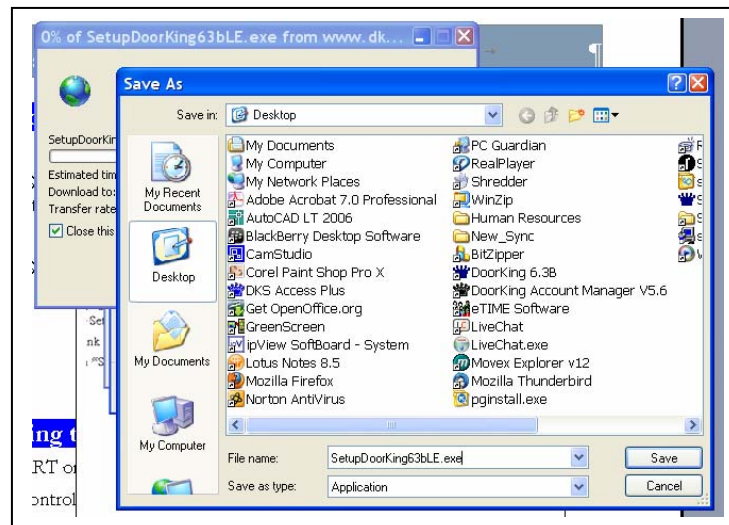

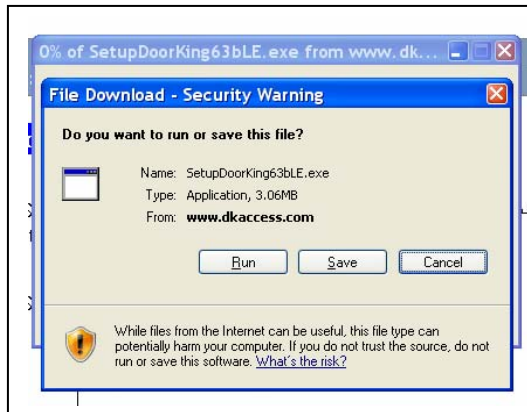

After that it is safe to close the DoorKing software and uninstall the current older version

# DoorKing Internet-Modem Server

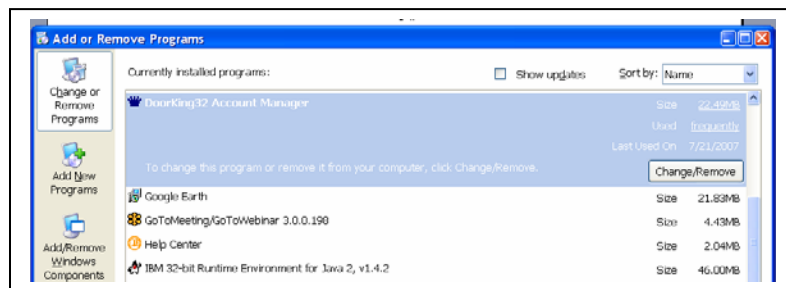

## 2) Download the new Doorking 6.3b Version:

- ✓ Direct link Software: [Software V 6.3.b](#)
- ✓ Click on “Save” and save file to Desktop. This will create an Icon on your desktop named: SetupDoorking6.3LE.exe
- ✓ Direct link to the 6.3b manual: [1835-066-M-9-11](#)
- ✓ Click on “Save” and save file to Desktop

## 3) Uninstalling the older Version:

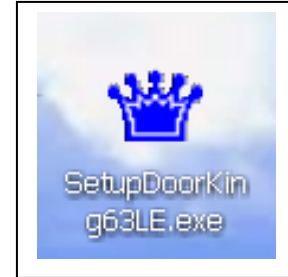

- ✓ Go to START on the lower left corner of your Desktop (Located on your taskbar)
- ✓ Click on Control Panel
- ✓ Once in Control Panel Click on “Add or Remove Programs” or “Uninstall and change a program”
- ✓ A listing of active programs will show (Give it a couple seconds to load the list)
- ✓ After its done populating click on the current version of the Doorking Software
- ✓ Click on “Remove” or “Uninstall”
- ✓ Follow the directions until finished (Different procedure for older and newer versions of Windows)

# DoorKing Internet-Modem Server

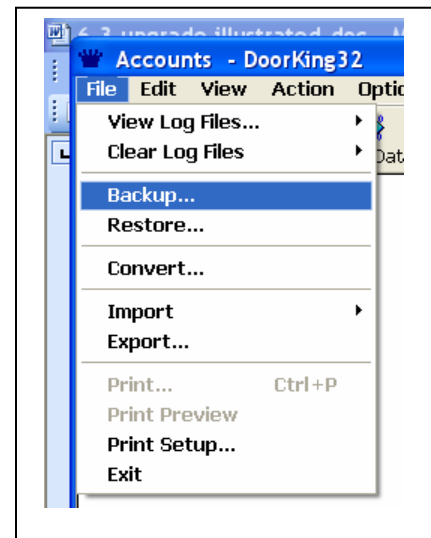

## 4) Installing the new DoorKing 6.3b Version:

- ✓ Click on the Setup DoorKing icon on your desktop
- ✓ Once you're at the install settings all you need to do is Click next until finished
- ✓ (All setting are set to default by DoorKing, changes can be made but can cause issues)
- ✓ Once installed you will see the DoorKing icon on your Desktop (Blue Crown) named: DoorKing32
- ✓ You have completed the Installation

## 5) To restore your software with a Backup:

- ✓ Open the DoorKing software
- ✓ Click on File (upper left corner) then scroll down to where it says Restore...
- ✓ Click on Browse then click on Desktop then select New Folder
- ✓ Click on the file named ACCOUNT.DAT
- ✓ Once selected, click on Open then click Ok
- ✓ A warning will prompt up "Are you sure?" click on Yes
- ✓ It will take a couple seconds then a message will say, "Restore has been Successful"
- ✓ You have then finished the restore

\*For systems that will be sending data using the DK Server Modem, a valid User ID and Password is required in the 6.3 software, and all systems must be activated on the DK Server.
